

COMPLETE SOURCE CAPABILITY FOR WATER

A Leader in Innovative Water Supply Solutions

Whether you need to install a new water supply system or expand, modify or rehabilitate an existing supply Collector Wells International, Inc. can assist you in selecting what is best for your facility.

Our key technical and field operations staff each have an average of 25 years experience in developing water supplies from ground water, surface water and infiltration sources to meet a variety of municipal drinking water, industrial and other water requirements.

Source Flexibility

The staff at Collector Wells International has experience developing groundwater and surface water supplies from radial collector wells, vertical wells, infiltration galleries, seawater collector wells and intakes. These systems are cost efficient and environmentally sound. They include ground water supplies from 200 gpm to 30,000 gpm and surface water supplies from 2,000 gpm to 60,000 gpm or more.

International Capability

Our team of water supply experts have experience in working at sites throughout the United States, Puerto Rico, South America, Mexico, Africa, Asia and other countries providing services to develop new water supplies, evaluate water resources and to service existing systems.

Collector Wells International's experienced staff and field crews have established a reliable team of individuals who work together providing complete turnkey services to meet our customers' water needs. Our team has the capability and experience to provide a first-quality, on-time, and safely-constructed product.

Expertise/Services

Ground Water Development

- ✚ Radial/Horizontal Collector Wells
- ✚ Vertical Wells
- ✚ Infiltration Galleries
- ✚ Test Drilling/Aquifer Testing
- ✚ Hydrogeological Surveys
- ✚ Pump Services
- ✚ Angle Wells/Horizontal Wells
- ✚ Well Maintenance

Surface Water Development

- ✚ Intake Construction
- ✚ Inspection & Service
- ✚ Siting Studies
- ✚ Induced Infiltration

Water Resource Management

- ✚ Recharge Units/ASR Systems
- ✚ Wellfield Management Services
- ✚ Outfall Diffusers

Hydrogeological Services

- ✚ Hydrogeological Investigations
- ✚ Riverbank/Riverbed Filtration Studies
- ✚ Geophysical Surveys
- ✚ Wellhead Protection
- ✚ Contamination Studies

Our Goal - Your Satisfaction

The staff at **Collector Wells International, Inc.**, from management to field operations, is committed to provide **you** with the most efficient system to meet your water supply needs.
